## Social Prescribing Information Standard

### V1.1

**Publication Date: January 2023**

**Previous Release: V1.0 September 2022**

The implementation guidance for the standard has been updated to include two new SNOMED CT reference sets which were created specifically for this standard.

The new reference sets are:

Social prescribing needs or concerns simple reference set (foundation metadata concept) SCTID: 1373501000000105

[SNOMED CT - Social prescribing issues simple reference set \(foundation metadata concept\) \(termbrowser.nhs.uk\)](https://termbrowser.nhs.uk/SNOMED-CT/1373501000000105)

Social prescribing support simple reference set (foundation metadata concept) SCTID: 1373511000000107

[SNOMED CT – Social prescribing support procedures simple reference set \(foundation metadata concept\) \(termbrowser.nhs.uk\)](https://termbrowser.nhs.uk/SNOMED-CT/1373511000000107)

The implementation guidance has been updated to refer to the new reference sets in the elements where they should be used which occur in all 3 parts of the standard. These are:

- Social Prescribing information standard
  - Presenting complaint or issue/coded value – Needs refset
  - Care and support plan/needs, concerns or problems/coded value – Needs refset
  - Care and support plan/Needs/Goals and hopes/actions and activities/what/coded value – Support refset
- Referral to social prescribing services
  - Presenting complaint or issue/coded value – Needs refset
  - Care and support plan/needs, concerns or problems/coded value – Needs refset
  - Care and support plan/Needs/Goals and hopes/actions and activities/what/coded value – Support refset
- Message back to GP and referrer
  - Care and support plan/needs, concerns or problems/coded value – Needs refset
  - Care and support plan/Needs/Goals and hopes/actions and activities/what/coded value – Support refset
